HISTORY OF MOHAMMED IBRAHIM HAJI GROUP

Mohammad Ibrahim Haji the founder and president of the group arrived empty-handed in the UAE in 1973. He worked very hard and today he owns a large network of companies in the United Arab Emirates, the Sultanate of Oman and Qatar. He was awarded a silver medal for his services by the Government of Pakistan, at the first convention of overseas Pakistanis held in Islamabad by the Prime Minister of Pakistan.

Mohammad Ibrahim Haji started working with his father in their own printing press at very early age. The oil boom of early Seventies paved a way in his mind for taking a decision to earn for better prospects and brought him to the shores of the Arabian Gulf. Although he worked ceaselessly for fourteen to sixteen hours a day and switched from job to job. He had a dream in his mind to possess a business of his own in the land of UAE. He even did a stint with an auto workshop as a painter, this hard grueling strengthened to be his own boss one day. That day was not too far. He launched his first venture of steel fabrication in 1975 in Al-Ain.

To meet the demands of the expanding business the family moved to the UAE in 1979, and his four sons joined him to extend and consolidate the business. Now each son is handling different departments of the business and have expertise in different fields while **Mohammad Ibrahim Haji** is the commanding person of the group. They share responsibility of running an expanding business with a total professional outlook.

This endeavor turns out with a wonderful success and enabled him to build a pillar for **Mohammad Ibrahim Haji Group**, which started trading business in the field of Aluminium extrusion, Glass, Timber and hardware, in 1984 and expanded his wings by opening its outlets in other emirates of the UAE, the Sultanate of Oman and Qatar.

From 1979 his four sons were involved in the business and expanded the business from a single shop into **Mohammad Ibrahim Haji Group**. Since September 2012, we have split the group within the four brothers to make it more manageable. The details of the branches are mentioned on the last page of the catalogue.

Mohammad Ibrahim Haji Sharjah Group is now owned and managed by **Mohammad Umar**. He is running the business since 1979 and he possesses a strong business management skills and he takes care of group accounts, internal audit, I.T. and sales of selected area.

INTRODUCTION OF M I H *Sharjah* GROUP

Mohammed Ibrahim Haji Sharjah Group is one of the leading importers, distributors and retailers in the United Arab Emirates and Qatar. We specialize in the field of Aluminium Extruded Profiles, Aluminium Accessories, Glass, Glass Accessories, Timber Products and hardware items. M I H caters to the needs of building contractors since its inception in 1973, growing and expanding its wings to a larger variety of around 12,000 products of the world reputed brands.

The **Mohammad Ibrahim Haji Sharjah Group** currently serves more than 5,000 regular customers in fast and efficient way by fulfilling their needs through its 8 branches in the U.A.E., including the central warehouse in Ajman, and 1 in Qatar, and expanding our chain to other G.C.C. countries. Our branches are interconnected with advanced online computer network technology and ERP system with oracle database for efficient Inventory management. Also our 2 manufacturing units situated at Ajman U.A.E are supporting us to provide the best services to our customers.

In **Mohammed Ibrahim Haji Sharjah Group**, every customer gets a warm welcome and a congenial atmosphere for a highly satisfactory experience. We excel in providing the right products to all building material requirements of our customers. Moreover, our customers trust and value our product knowledge and industry experience to provide the right solution and advice for them. We are the only company which is the most accessible throughout the U.A.E.

Our Vision:

- To meet the demands of our clients in every way possible in the changing dynamics of construction and building materials field.
- To improve our customer's general standard of living by providing them with the variety of products and meet their satisfaction.
- To be the Leader in the trading of building material products in the Arabian Gulf.

Our Mission:

- To establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance and expertise by every member of our team
- To serve our customers and community with good quality products at competitive prices and on time delivery.
- To provide innovative solutions for the construction and building materials field.

Our Values:

- We make sure that all of our customer orders are fulfilled to the highest standards of professionalism.
- We fulfill our commitments, starting from the quality of products to on time delivery.
- We work as a team in every way to exceed our customers' expectations.
- We respect and recognize the hard work of our employees.
- We are an ethical and honest organization.

Our Strengths:

- All our branches have large warehouses with ample supply of all kinds of materials.
- We have 400 efficient and dedicated staff members.
- All our showrooms have attached warehouses, to supply a very wide variety of products, in whatever volumes required and at very competitive prices.
- We have well-equipped logistics with 75 vehicles including trailers and trucks to make our deliveries on time.

MOHAMMAD IBRAHIM HAJI

**THE FOUNDER OF
MOHAMMED IBRAHIM HAJI GROUP**

INTRODUCTION OF MOHAMMAD UMAR

Mohammad Umar started working with his father, **Mohammad Ibrahim Haji**, in the field of building materials at a very young age. His first job was at his father's aluminium fabrication workshop, where he had to learn the whole process of aluminium fabrication. On the age of 15, **Mohammad Umar** learnt how to make windows and started training his team to do the same. He used to work 12 to 14 hours a day and he had developed many formulas and formats which resulted in the production of many windows with only a few people. This also resulted in better productivity on daily basis. Some of these formulas are still running in the company even today.

In the early 1980s, **Mohammad Ibrahim Haji** started travelling to Taiwan with the idea of importing products from there at better prices. One of **Mohammad Umar's** responsibilities was to do a thorough market research, and provide samples of the running items of the market with the details of the quality and the quantity that was needed for the group. In the mid 1980s, the group had started importing aluminium profiles from Taiwan. That was a competitive edge for the group as at that time as other big trading companies did not even have such a procurement method.

Mohammad Umar felt that the inventory needs control by computerized system instead of stock control card indexing (manual) so he worked with a software programmer to create a user friendly system to manage the group's needs. **Mohammad Umar** took the challenge to fix stock control, accounting, and internal audit. By 1990 he had started merging together different databases and created an online system that connected the branches, in order to see the live inventory, reports and controls of all the branches. At that time the system was still new to the company so major issues came related to I. T., accounting and internal audit; then Mohammad Umar used to dedicate more than 24 hours to fix them so that things would run smoothly for the whole group.

“As you wake up, there will always be a new challenge every day and the success is that you have to manage in a better way to accomplish that challenge. In the long run, this continuous process becomes the success of your business, as well as your life.”

a quote by **Mr. Mohammad Umar**

PRODUCT RANGE

Aluminium Profiles:

Aluminium profiles are available for Structural Glazing, Curtain Wall, Doors, Sliding Windows, Hinged Windows, Kitchen Cabinet, Show Case, Stair Case, Balcony and Sky Light from AL Ghurair, Saudi, Oman, Bahrain & Taiwan.

Aluminium Sheets:

Aluminium Plain & Checkered Sheets of all sizes.

Aluminium Accessories:

Hinge, Handles, Locks, Door Closer, Floor Machines, Screws, Blind Rivets, Tower Bolts, Silicon etc.

Ready-made Aluminium Door:

All type of Aluminium and glass ready-made designed doors.

Glass:

Clear, Tinted, Mirror & Reflective from USA, Belgium, Saudi Arabia, Taiwan, Indonesia & China – Medium Performance, High Performance & Laminated Glass etc.

Glass Accessories:

Patch Fitting, Spider Fitting, Glass Machines etc.

Kitchen Cabinet Material:

H.P.L. Sheets, Shutters, Cooker Hoods, Sinks etc.

Poly Carbonates Sheets:

Poly Carbonates Sheets Obscure, Natural, Colored & Clear sheets.

Acrylic Sheets:

Acrylic sheets of all colors and clear of different thickness.

M.D.F.:

Plain, Veneered, Melamine (more than 60 colors) one side & two side 3mm to 25mm thickness.

Plywood:

Veneered Plywood, Commercial Plywood, Marine Plywood, Film Faces Plywood, Decorative Plywood etc.

Boards:

Block Board, Hard Board, Soft Boards etc.

Ready-made Wooden Doors:

Veneered & Laminated Door.

Solid Wood:

Red Maranti, African Teak, Ash Wood, Oak Wood, Beach Wood and many more.

Formica:

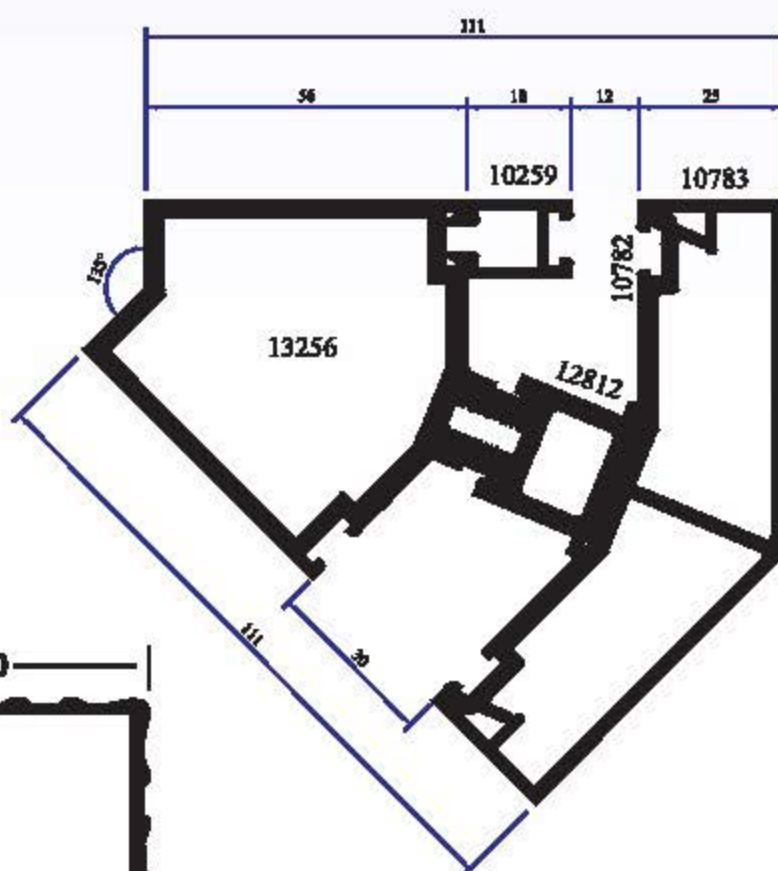

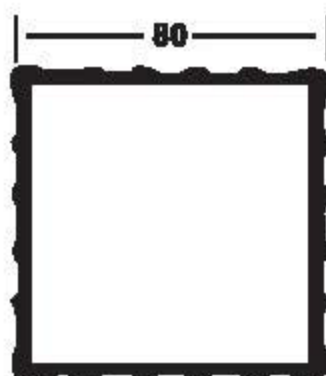

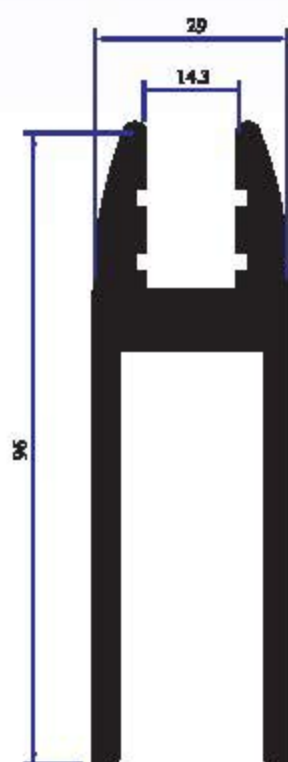

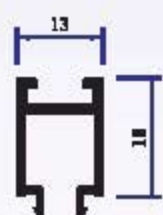

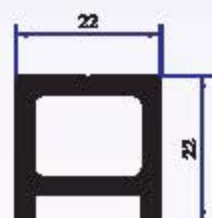

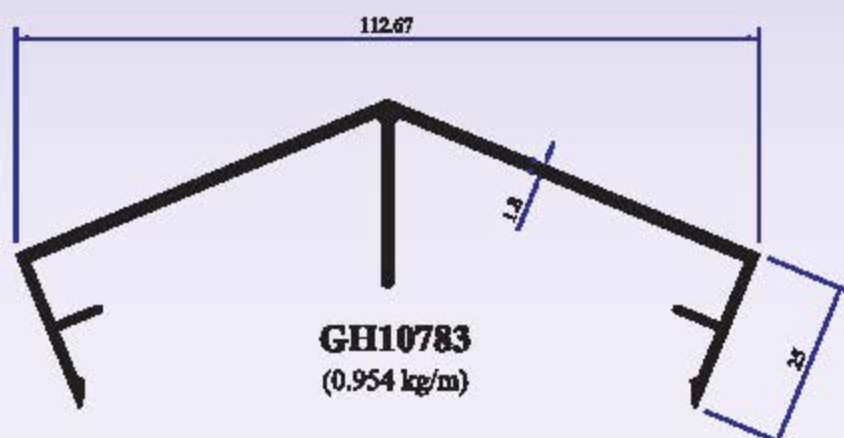

More than 70 colors.

Hardware:

All kinds of hardware for Building Materials.

We are importing from:

USA, Australia, Canada, Oman, Saudi Arabia, Bahrain, Taiwan, Korea, China, Malaysia, Indonesia, Thailand, Singapore, Romania, Portugal, Belgium, Africa, Burma, Chile, Italy, Germany, Spain, Greece, Finland, Pakistan, India and Syria.

PC & PS SHEETS

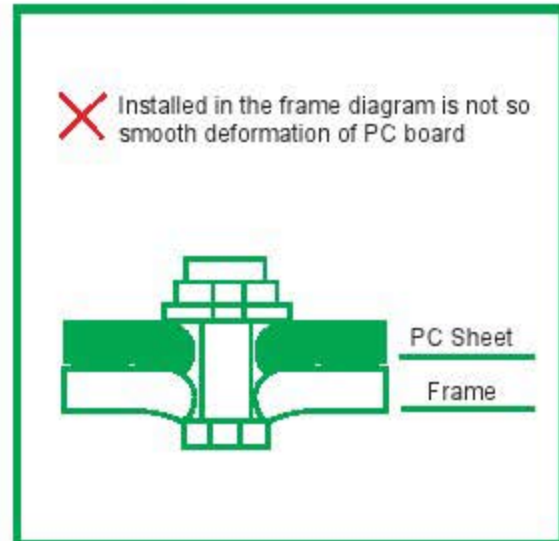

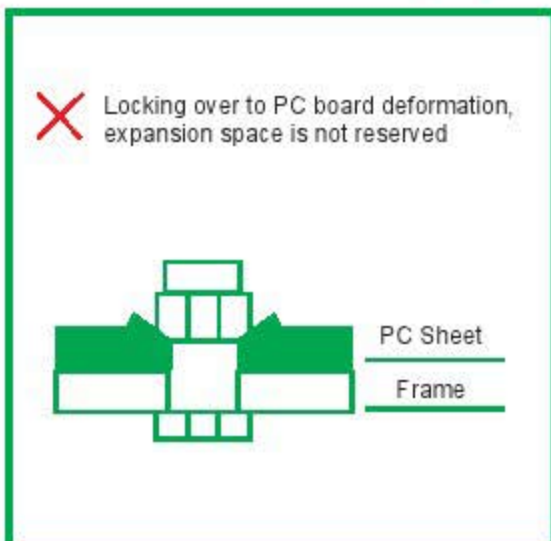

POLYCARBONATE

PC HOLLOW SHEET

- ★ - High Impact Strength
- ★ - High Optical Quality
- ★ - Good UV Resistance
- ★ - Good Noise Insulation
- ★ - Good Temperature Resistance
- ★ - Easy Thermoforming
- ★ - Green Product
- ★ - Various Building Application

These are wrong ways to install the Poly Carbonate Sheets

POLYCARBONATE

PC HOLLOW SHEET

HIGH QUALITY POLYCARBONATE SHEET
ISO90001 & ISO14000 AUTHENTICATION

Remove approximately 5cm of film from the edges before installing

Remove all film immediately after completing the installation, then cover again to protect the sheet surface until the completion of the construction.

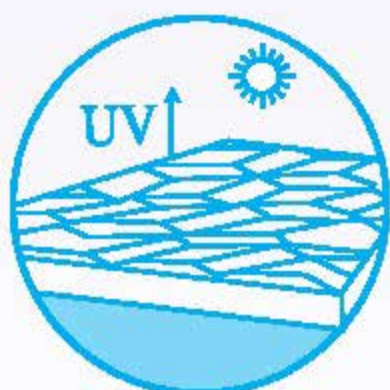

Do not remove or damage the protection film until sheets are properly installed.

Sheets must not contact with alkalines, alkali salts, amines, ketones, aldehydes, esters, ethers, chlorinated hydrocarbons, aromatic hydrocarbons, methanol, and isopropanol, etc.

Rinse sheet with lukewarm water (below 60° C). Wash with mild soap or mild detergent and a soft cloth or sponge. Gently wash to loosen remaining dirt and grime. Do not scrub or use brushes or rough fibre. Never scrape PC sheet with squeegees, razor blades, or other sharp instruments. Rinse once more. Dry with soft cloth or chamois to prevent water spotting. To remove grease, wet point or stickers, rub gently with a soft cloth wetted thoroughly in anhydrous ethyl alcohol, VM&P, naphtha or kerosene.

Do not remove the protection film when cutting. After cutting blow away chips and seal again with anti dust tape. The diameter of the drill holes must be 50% larger than that of the screws to allow thermal expansion due to seasonal temperature fluctuation.

The UV protected side of the sheet is covered with printed film and must face towards the sun.

Sheets must always be installed with ribs in vertical inclination. Close lower ends perforated aluminium-tape and/or a perforated U profile

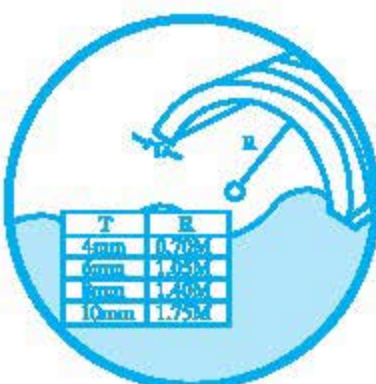

Sealants and gaskets must be compatible to polycarbonate

Must be padded and packaged in good condition during storage and transportation. Don't store under direct sunlight or without shelter from rain.

When cold bending, the sheet must not be bent with the genetrix parallel to the honeycombs since in this way the curved beam effect is lost, and this can cause stress cracking. The radius of curvature must be more than 175 times of the sheet thickness. Always keep sheet surface clean. Do not walk on the PC sheet at any time.
